ECONOMY AND CAPITAL MARKETS UPDATE

Economic Review

During the period under review, inflation clocked in at 5.66%YoY as compared to 7.97%YoY in the last month. On a monthly basis, CPI reported a change of -0.21% in January compared to -0.69% in the last month. Inflation eased off predominantly due to base effect and reduction in food prices. Food prices declined primarily due to the seasonal decline in food prices, leading to a -2.65%MoM change in the food index. Nevertheless, the surge in transport and housing, water, electricity & gas indices kept the benefit in check. The housing, water, electricity & gas index inched up by 1.87%MoM due to quarterly housing index adjustment and increase in liquefied hydrocarbons' prices. Similarly, the transport index registered an increase of 1.85%MoM due to an increase in motor fuel prices. Cumulatively, the average inflation has reached to 8.23%YoY during 7MFY21. Going forward, we expect the inflation to average around ~8.5-8.7% for FY21. On the balance of payment front (BOP), country posted a current account deficit of USD 662mn for the first time in six months in December. This decreased the cumulative current account surplus for the 1HFY21 to USD 1.13bn compared to a deficit of USD 2.03bn in the same period last year (SPLY). Current account deficit (CAD) is registered mainly on the back of repatriation of profits under primary income head. On the trade front, Pakistan recorded trade deficit of USD 2.89bn, up 53.47%YoY. This deterioration in trade statistics is due to USD 5.77bn imports, up 27.03%YoY, as imports gained momentum with rebounding demand in country. Cumulatively, country recorded a trade deficit of 12.38bn for the 1HFY21, up 8.23%YoY. On the other hand, remittances continued to support BOP and posted USD 2.43bn in month under review, up 16.21%YoY. Foreign exchange reserves of the country stood at USD 12.99bn, as of January 22nd 2021, providing a total import cover of ~3.36 months. On the fiscal side, FBR managed to collect PKR 364bn for the month of January against target of PKR 340bn, taking total collection for 7MFY21 to PKR 2.57tr, overshooting target of PKR 2.55tr for the period by PKR 20bn.

Money Market Review

The main event during the Jan'21 was the announcement of Monetary Policy by SBP in which policy rate was kept unchanged at 7.00%. The State Bank expects inflation to fall within the previously announced range of 7-9 percent for FY21 and trend toward the 5-7 percent target range over the medium-term. With the inflation outlook relatively stable aside from the possibility of temporary supply-side shocks, the MPC decided to continue with the existing accommodative stance. The main highlight of the Monetary Policy meeting was forward guidance, which was provided for the first time, to keep rates unchanged in the near term to facilitate policy predictability and decision-making. During the month, T-bill auctions saw considerable participation in 3M tenor with cutoff yields being flat however cutoffs for 6M and 12M increased significantly to 7.49% and 7.79% respectively as compared to the previous auctions. During Jan'21 government ended up borrowing a total of PKR 1,058.2bn across 3M, 6M and 12M tenors. PIB auction held during the month saw significant increase in cutoffs as the debt office issued supply of 5Y PIBs which was previously rejected during the last 3 auctions. 3Y, 5Y and 10Y cutoffs were 8.49%, 9.52% and 9.99% respectively. During the month of Jan'21 SBP conducted nine repo operations and remained a net lender of PKR 990.2bn at a weighted average yield of 7.04%.

Stock Market Review

During the month, KSE 100 index surged by 2,630 points (6.0%MoM) in Jan'21, and closed at 46,386 points. This took the CYTD and FYTD returns to 6.0% and 34.7%, respectively. Average traded volume went up by 27%MoM to 624mn while value swelled by 9%MoM to USD 144mn. SBP announced the policy rate to keep at 7% with the forward guidance on monetary policy; it helped the investors to minimize the uncertainty over future outlook. Low inflationary pressure and stable outlook of monetary policy boosted the investor's confidence in the market. Foreign investors continued their selling spree by offloading shares worth of USD 1.8mn. On the domestic front, individuals and companies bought massively with a net buying of USD 44mn and USD 15mn, respectively. A sector-wise analysis shows that cement and oil & gas marketing companies marked foreign outflow of USD 2.4mn and USD 2.2mn, respectively. As for now, the KSE-100 index is trading at a 2021E P/E multiple of 7.7x, and offering a dividend yield of 6.4%.

ABL Islamic Fund

ABL-IDSF
ABL Islamic Dedicated Stock Fund

INVESTMENT OBJECTIVE

To provide capital appreciation to investors of 'Fund of Funds' schemes by investing in Shariah compliant equity securities.

FUND MANAGER'S COMMENTS

ABL-IDSF increased by 5.57% in January'21 against 4.29% increase in the benchmark, reflecting an over performance of 128 basis points. As at January' 21 ABL-IDSF was 96.89% invested in equities and remaining in bank deposits. During the month, KSE 100 index surged by 2,630 points (6.0%MoM) in Jan'21, and closed at 46,386 points. This took the CYTD and FYTD returns to 6.0% and 34.7%, respectively. Average traded volume went up by 27%MoM to 624mn while value swelled by 9%MoM to USD 144mn. SBP announced the policy rate to keep at 7% with the forward guidance on monetary policy; it helped the investors to minimize the uncertainty over future outlook. Low inflationary pressure and stable outlook of monetary policy boosted the investor's confidence in the market. Foreign investors continued their selling spree by offloading shares worth of USD 1.8mn. On the domestic front, individuals and companies bought massively with a net buying of USD 44mn and USD 15mn, respectively. A sector-wise analysis shows that cement and oil & gas marketing companies marked foreign outflow of USD 2.4mn and USD 2.2mn, respectively. As for now, the KSE-100 index is trading at a 2021E P/E multiple of 7.7x, and offering a dividend yield of 6.4%.

FUND MANAGER'S COMMENTS

ABL Islamic Pension Fund - Debt Sub Fund posted a return of 5.81 % during the month of January '21. Other than 33.65 % in GoP Ijarah Sukuk, portfolio had an exposure of 14.94% in Corporate Sukuks and 42.53 % of the fund's assets were placed as Cash at bank. Going forward, we intend to maintain the current portfolio allocations as we expect price appreciation in both Corporate and GOP Ijarah Sukuks in the near term owing to the lack of shariah compliant instruments in the market.

The Scheme has maintained the provision against Sindh Workers' Welfare Fund's Liability to the tune of Rs. 73,755, had the same not been made, the NAV per unit of the scheme would have been higher by Rs. 0.1727 per unit.

ABL Islamic Pension Fund - Money Market Sub Fund generated an annualized return of 4.33 % during the month of January '21. During the month significant allocation was maintained as bank deposits (i.e. 85.44 %) owing to better deposit rates offered by banks while 13.35 % of the portfolio was placed in GoP Ijarah Sukuks.

The Scheme has maintained the provision against Sindh Workers' Welfare Fund's Liability to the tune of Rs. 39,909, had the same not been made, the NAV per unit of the scheme would have been higher by Rs 0.0717 per unit.

ABL Islamic Pension Fund - Equity Sub Fund generated a return of 6.25 % during the month of January '21. During the month, KMI 30 index surged by 3,055 points (4.3%MoM) in Jan'21, and closed at 74,223 points. This took the CYTD and FYTD returns to 4.3% and 34.9%, respectively. Average traded volume and value decreased by 7.7%MoM to 133mn and
