The Board of Directors of ABL Asset Management Company Limited, the management company of **ABL Money Market Fund**, is pleased to present the Condensed Interim Financial Statements (un-audited) of ABL Money Market Fund for the period ended March 31, 2024.

ECONOMIC PERFORMANCE REVIEW

Pakistan's economy navigated through quite an eventful period during the first nine months of fiscal year 2024. The period was highlighted by Pakistan successfully securing a SBA of USD 3bn with IMF, smooth execution of general elections, and formation of new governments at federal and provincial levels. The appointment of Muhammad Aurangzeb as finance minister has also brought resolution to lingering uncertainties in the economy. There were inflows from IMF, new loans and roll over from China, Saudi Arabia and UAE during the period has increased foreign exchange reserves which are now standing at around USD 8.0bn, as of March 22, 2024. PKR has also appreciated against dollar after recording a low of 307 in interbank market, and has closed the period at PKR277.9. However, the inflation remained a persistent concern, as the care taker government approved massive increases in gas tariffs twice during the period which took the headline inflation increase to 27.2% on a year-onyear (YoY) basis. On the balance of payment front, the country has shown a decline of around 74% in its current account deficit, posting a deficit of USD 999mn during the 8MFY24 compared to a deficit of USD 3846mn in the same period last year (SPLY). The reduction in the current account deficit was primarily driven by a curtailment in the imports and an increment in the exports, by USD 1.7bn (including goods and services) and USD 1.8bn (including goods and services), respectively. However, during the 8MFY24, worker's remittances reduced by USD 224mn, standing at approximately USD 18.08bn. Tighter monetary and fiscal policy along with administrative steps taken by the government have led to such improvements. Furthermore, the rupee, recorded a low of 307 in interbank market during the period, but later recovered and closed the period at PKR277.9. On the fiscal side, FBR managed to collect PKR 6710bn during the period. Going forward, news regarding Pakistan's entry into a new IMF program with an ease in inflation will set the direction of the economy.

MONEY MARKET REVIEW

In 9MFY24, Pakistan's Consumer Price Index (CPI) clocked in at an average 27.1% year-on-year (YoY), compared to an increase of 27.2% in the same period last year. The main sectors contributing to the inflation were food, transportation, and housing attributed to domestic petroleum product price hikes, higher electricity tariffs and a twice unprecedented hike in gas prices.

The State Bank of Pakistan maintained the policy rate at 22% during the period. However, it reported that inflation will decline in the coming months due to a combination of high base effect and slower month-on-month inflation. Going forward, SBP may cut interest rate by 100bps in the upcoming policy as the real interest rates have become positive and inflation have seen a declining trend. Furthermore, the SBP reserves stood at USD 8.0 billion, as of March 22, 2024.

In 9MFY24, T-bill cut off yields decreased by 101bps across different tenors. 3M cut off yield decreased by 34bps from 22.00% to 21.66%, 6M cut off yield decreased by 158bps from 21.97% to 20.39% and 12M cut off yield decreased by 110bps from 22.00% to 20.90%. During 9MCY23, government ended up borrowing a total of PKR 18430bn across 3M, 6M and 12M tenors which is 29% more than the borrowed amount in the same period last year.

Fixed rate PIB auction held during the period saw considerable participation in 3Y, 5Y and 10Y tenors and PKR 913bn was raised which is 6% more than the raised amount in the same period last year. 3Y bonds cut off decreased by 257bps and came at around 16.78% while 5Y bonds and 10Y bonds cut offs closed at around 15.49% and 14.35% with an increase of 240bps and 140bps, respectively. No participation was seen in 15Y, 20Y and 30Y PIBs in the period under consideration.

MUTUAL FUND INDUSTRY REVIEW

Total assets under management (AUMs) of the open-end mutual fund industry posted a growth of 49%YoY (from PKR 1613bn to PKR 2409bn) till Feb'24. The major inflow came in Islamic income (up 115%YoY) and Fixed rate/Return scheme (up 107%YoY) to close the period at PKR 400bn and PKR 108bn respectively. AUMs of equity funds have also increased by 42%YoY and clocked in at PKR 122bn. Capital Protected schemes saw an exponential growth to clock at PKR 73bn. Appreciation in equity funds may be attributed to the positive sentiments among the investors after IMF SBA program for USD 3bn.

FUND PERFORMANCE

For the period ended 3QFY24, ABL MMP-1 posted an annualized return of 20.74% against the benchmark return of 20.45%, thereby outperforming the benchmark by 29bps. At period end, Portfolio contains 86.00% T-bills, 6.50% short term sukuk and 6.05% Cash.

AUDITORS

M/s. A.F. Ferguson & Co. (Chartered Accountants), have been appointed as auditors for the year ending June 30, 2024 for ABL Money Market Fund (ABL-MMF).

MANAGEMENT QUALITY RATING

On October 26, 2023: The Pakistan Credit Rating Agency Limited (PACRA) has assigned the Management Quality Rating (MQR) of ABL Asset Management Company (ABL AMC) at 'AM1' (AM-One). Outlook on the assigned rating is 'Stable'

OUTLOOK & STRATEGY:

Despite the fact that policy rate has remained unchanged at 22%, yields for both shorter tenor and longer tenor instruments have dropped indicating that market participants are expecting a rate cut in the near future. Our base case scenario is that we are expecting a first rate cut in the second quarter of CY24 as the real interest rates have become positive as per CPI reported in the month of March.

We expect that the new government will be able to negotiate a long-term arrangement with the IMF which would give more stability to the rupee and open up the Eurobond market and funding from other multilateral agencies like World Bank, ADB, ISDB etc.

The inversion in the yield curve has already sharpened since August'23. Yield curve at the shorter end has pretty much flattened with the 3M, 6M and 12M T-bills, carrying a negative spread of around 100bps from the policy rate. On the longer end of the yield curve, the spread from the policy rate of 2.5yrs and 5yrs is almost 475bps and 650bps.

Going forward, we intend to increase the duration of our money market portfolios without hurting their running yields. Therefore, we would switch our positions from floaters to fixed rate PIBs and longer duration T-Bills.

Further, we are negotiating with banks deposit deals to get profit rates better than the T-bill yields so we could trade along the shorter end of the yield curve to book capital gains and take funds back into the banks in order to improve running yields of our portfolios.

We will continue to stay cautious in our approach and not get swayed by the market until there is more clarity, especially on the political and economic front after which we would take position in longer term instruments.

ACKNOWLEDGEMENT

We thank our valued investors who have placed their confidence in us. The Board is also thankful to Securities & Exchange Commission of Pakistan, the Trustee (Central Depository Company of Pakistan Limited) and the management of Pakistan Stock Exchange Limited for their continued guidance and support. The Directors also appreciate the efforts put in by the management team.

ABL MONEY MARKET FUND

NOTES TO AND FORMING PART OF THE CONDENSED INTERIM FINANCIAL STATEMENTS (UN-AUDITED) FOR THE PERIOD FROM NOVEMBER 16, 2023 TO MARCH 31, 2024

1 LEGAL STATUS AND NATURE OF BUSINESS

1.1 ABL Money Market Fund (the Fund) is an open ended mutual fund constituted under a Trust Deed entered into on April 14, 2023 between ABL Asset Management Company Limited as the Management Company and the Central Depository Company of Pakistan Limited (CDC) as the Trustee. The Securities and Exchange Commission of Pakistan (SECP) authorised constitution of the Trust Deed vide letter no. SCD/AMCW/ABL-MMF/2023/188 dated January 17, 2023 in accordance with the requirements of the Non-Banking Finance Companies and Notified Entities Regulation, 2008.

The Management Company of the Fund has been licensed to act as an Asset Management Company under the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 (the NBFC Rules) through a certificate of registration issued by the SECP. The registered office of the Management Company is situated at Plot No. 14, Main Boulevard, DHA Phase 6, Lahore. The Management Company is a member of the Mutual Funds Association of Pakistan (MUFAP).

FOR THE NINE MONTHS ENDED

- 1.2 The Fund has been categorised as an open ended Money Market Scheme by the Board of Directors of the Management Company pursuant to the provisions contained in Circular 7 of 2009 and is in the process of listed on the Pakistan Stock Exchange Limited. The units of the Fund were initially offered for public subscription at a par value of Rs 10 per unit. Thereafter, the units are being offered for public subscription on a continuous basis and are transferable and redeemable by surrendering them to the Fund.
- 1.3 The objective of the Fund is to provide competitive returns to its investors while preserving capital to the possible extent, by investing primarily in Bank Deposits and Money Market Instruments.
- 1.4 Pakistan Credit Rating Agency (PACRA) assigned the management quality rating of AM1 (stable outlook) to the Management Company as at October 26, 2023.
- 1.5 The title to the assets of the Fund is held in the name of the Central Depository Company of Pakistan Limited as the Trustee of the Fund.
- 1.6 As per the offering document approved by the SECP, the accounting period, in case of the first such period, shall commence from the date on which the trust property is first paid or transferred to the Trustee. Accordingly, these condensed interim financial statements have been prepared from November 16, 2023 to March 31, 2024.
- 1.7 This is the first accounting period of the Fund and hence there are no comparative figures.

2 STATEMENT OF COMPLIANCE

- 2.1 These condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards applicable in
 - International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
 - Provisions of and directives issued under the Companies Act, 2017 along with part VIIIA of the repealed Companies Ordinance, 1984; and
 - the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 (the NBFC Rules), the Non-Banking Finance Companies and Notified Entities Regulations, 2008 (the NBFC Regulations) and the requirements of the Trust Deed.

Where provisions of and directives issued under the Companies Act, 2017, part VIIIA of the repealed Companies Ordinance 1984, the NBFC Rules, the NBFC Regulations and the requirements of the Trust Deed differ from the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017, part VIIIA of the repealed Companies Ordinance 1984, the NBFC Rules, the NBFC Regulations and the requirements of the Trust Deed have been followed.

The disclosures made in these condensed interim financial statements have, however, been limited based on the requirements of the International Accounting Standard 34: 'Interim Financial Reporting'.

2.2 Critical accounting estimates and judgments

The preparation of these condensed interim financial statements in accordance with the accounting and reporting standards requires the management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates, judgments and associated assumptions are based on historical experience and various other factors including expectations of future events that are believed to be reasonable under the circumstances, the results of which form the basis of making judgments about carrying values of assets and liabilities. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimate is revised if the revision affects only that year, or in the year of revision and future years if the revision affects both current and future years.

The estimates and judgments that have a significant effect on these condensed interim financial statements of the Fund relate to classification, valuation and impairment of financial assets (notes 3.2 and 5) and provision for taxation (notes 3.14 and 11).

2.3 Accounting convention

These condensed interim financial statements have been prepared under the historical cost convention except that investments have been carried at fair values.

2.4 Functional and presentation currency

Items included in these condensed interim financial statements are measured using the currency of the primary economic environment in which the Fund operates. These condensed interim financial statements are presented in Pakistan Rupee, which is the Fund's functional and presentation currency.

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these condensed financial statements are set out below.

3.1 Cash and cash equivalents

These comprise balances with banks in savings and current accounts, cheques in hand and other short-term highly liquid investments with original maturities of three months or less.

3.2 Financial assets

3.2.1 Classification and subsequent measurement

Debt instruments

IFRS 9 has provided a criteria for debt securities whereby these debt securities are either classified as:

- amortised cost
- at fair value through other comprehensive income "(FVOCI)"
- at fair value through profit or loss (FVTPL) based on the business model of the entity.

However, IFRS 9 also provides an option whereby securities managed as a portfolio or group of assets and whose performance is measured on a fair value basis, to be recognised at FVTPL. Therefore the management considers its investment in debt securities as being managed as a group of assets and hence has classified them as FVTPL.

3.2.2 Impairment

The Fund assesses at each reporting date whether there is objective evidence that a financial asset or a group of financial assets is impaired. If such an indication exists, the recoverable amount of such asset is estimated. An impairment loss is recognised whenever the carrying amount of an asset exceeds the recoverable amount.

3.2.3 Impairment loss on debt securities

Provision for non-performing debt securities is made on the basis of time-based criteria as prescribed by the SECP and based on management's assessment made in line with its provisioning policy approved by the Board of Directors of the Management Company in accordance with the guidelines issued by the SECP. Impairment losses recognised on debt securities can be reversed through the Income Statement.

As allowed by the SECP, the Management Company may make provision against debt securities over and above the minimum provision requirement prescribed by the SECP, in accordance with the provisioning policy duly approved by the Board of Directors.

3.2.4 Initial recognition and measurement

Financial assets are recognised at the time the Fund becomes a party to the contractual provisions of the instruments. These are initially recognised at fair value plus transaction costs except for financial assets carried 'at fair value through profit or loss'. Financial assets carried 'at fair value through profit or loss' are initially recognised at fair value and transaction costs are recognised in the Income Statement.

3.2.5 Regular way contracts

All regular way purchases and sales of financial assets are recognised on the trade date i.e. the date on which the Fund commits to purchase or sell the asset.

3.2.6 Derecognition

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership. Any gain or loss on derecognition of financial assets is taken to the Income Statement.

3.3 Financial liabilities

3.3.1 Classification and subsequent measurement

Financial liabilities are classified and subsequently measured at amortised cost.

3.3.2 Derecognition

Financial liabilities are derecognised when they are extinguished (i.e. when the obligation specified in the contract is discharged, cancelled or expires).

3.4 Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the 'Statement of Assets and Liabilities' when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

3.5 Provisions

Provisions are recognised when the Fund has a present, legal or constructive, obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made. Provisions are regularly reviewed and adjusted to reflect the current best estimate.

3.6 Net asset value per unit

The Net Asset Value (NAV) per unit as disclosed in the Statement of Assets and Liabilities is calculated by dividing the net assets of the Fund by the number of units in circulation at the year / period end.

3.7 Issue and redemption of units

Units issued are recorded at the offer price, determined by the Management Company for the applications received by the Management Company / distributors during business hours on that day. The offer price represents the Net Asset Value (NAV) per unit as of the close of the business day, plus the allowable sales load and provision of any duties and charges if applicable. The sales load is payable to the Management Company / distributors.

Units redeemed are recorded at the redemption price applicable to units for which the Management Company / distributors receive redemption application during business hours of that day. The redemption price is equal to the NAV as of the close of the business day, less an amount as the Management Company may consider to be an appropriate provision of duties and charges.

3.8 Distributions to unit holders

Distributions to the unit holders are recognised upon declaration and approval by the Board of Directors of the Management Company. Based on the Mutual Funds Association of Pakistan's (MUFAP) guidelines duly consented by the SECP, distribution for the period also includes portion of income already paid on units redeemed during the period.

Distributions declared subsequent to the year end reporting date are considered as non-adjusting events and are recognised in the financial statements of the period in which such distributions are declared and approved by the Board of Directors of the Management Company.

3.9 Element of income / (loss) and capital gains / (losses) included in prices of units issued less those in units redeemed

Element of income represents the difference between net assets value per unit on the issuance or redemption date, as the case may be, of units and the net assets value per unit at the beginning of the relevant accounting period. Further, the element of income is a transaction of capital nature and the receipt and payment of element of income is taken to unit holders' fund. However, to maintain the same ex-dividend net asset value of all units outstanding on the accounting date, net element of income contributed on issue of units lying in unit holders fund will be refunded on units in the same proportion as dividend bears to accounting income available for distribution.

3.10 Revenue recognition

- Gains / (losses) arising on sale of investments are recorded at the date at which the transaction takes place.
- Unrealised gains / (losses) arising on re-measurement of investments classified as 'financial assets at fair value through profit or loss' are recorded in the period in which these arise.
- Profit on savings accounts is recognised on an accrual basis.
- Income from investments in commercial paper and government securities is recognised on an accrual basis using
 effective interest method.

3.11 Expenses

All expenses including management fee and trustee fee are recognised in the Income Statement on an accrual basis.

3.12 Preliminary expenses and floatation costs

Preliminary expenses and floatation costs represent expenditure incurred prior to the commencement of the operations of the Fund. These costs are being amortised over a period of 5 years in accordance with the requirements set out in the Trust Deed of the Fund.

3.13 Foreign currency translation

Transactions denominated in foreign currencies are accounted for in Pakistan Rupees at the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates for monetary assets and liabilities denominated in foreign currencies are recognised in the profit and loss account.

3.14 Taxation

The income of the Fund is exempt from income tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than ninety percent of its accounting income for the year, as reduced by capital gains, whether realised or unrealised, is distributed to the unit holders in cash.

The Fund is also exempt from the provisions of section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

3.15 Earnings per unit

Earnings per unit is calculated by dividing the net income of the year / period before taxation of the Fund by the weighted average number of units outstanding during the period.

16 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Fund's objective in managing risk is the creation and protection of unit holders' value. Risk is inherent in the Fund's activities, but it is managed through monitoring and controlling activities which are primarily set up to be performed based on limits established by the Management Company, the constitutive documents of the Fund and the regulations and directives of the SECP. These limits reflect the business strategy and market environment of the Fund as well as the level of the risk that the Fund is willing to accept. The Board of Directors of the Management Company supervises the overall risk management approach within the Fund. The Fund is exposed to market risk, liquidity risk and credit risk arising from the financial instruments it holds.

16.1 Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market prices.

The Management Company manages the market risk through diversification of the investment portfolio and by following the internal guidelines established by the Investment Committee.

Market risk comprises of three types of risks: yield / interest rate risk, currency risk, and price risk.

(i) Yield / interest rate risk

Yield / interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market interest rates. The Fund is exposed to such risk on its balances held with banks, investments in term finance and sukuk certificates and Pakistan investment bonds. The Investment Committee of the Fund reviews the portfolio of the Fund on a regular basis to ensure that the risk is managed within the acceptable limits.

(ii) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in foreign exchange rates. The Fund does not have any financial instruments in foreign currencies and hence is not exposed to such risk.

(iii) Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk) whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

16.2 Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligation in full as they fall due or can only do so on terms that are materially disadvantageous to the Fund.

The Fund is exposed to daily redemptions at the option of unit holders. The Fund's approach to managing liquidity is to ensure, as far as possible, that the Fund will always have sufficient liquidity to meet its liabilities when due under both normal and stressed conditions. The Fund's policy is, therefore, to invest the majority of its assets in investments that are traded in an active market and can be readily disposed and are considered readily realisable.

In order to manage the Fund's overall liquidity, the Fund may also withhold daily redemption requests in excess of ten percent of the units in issue and such requests would be treated as redemption requests qualifying for being processed on the next business day. Such procedure would continue until the outstanding redemption requests come down to a level below ten percent of the units then in issue. The Fund did not withhold any redemptions during the period.

16.3 Credit risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss to the Fund by failing to discharge its obligation as it falls due.

17 FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at March 31, 2024, the Fund held the following financial instruments measured at fair values:

	For the period ended March 31, 2024			
	Level 1	Level 2	Level 3	Total
		Rup	ees in '000

مستقبل كا آؤث لك

اس حقیقت کے باوجود کہ پالیسی کی شرح 22% پر کوئی تبدیلی نہیں کی گئے ہے، مخضر مدت اور طویل مدتی آلات دونوں کی پیداوار میں کمی آئی ہے جس سے ظاہر ہو تا ہے کہ مارکیٹ کے شرکاء مستقبل قریب میں شرح میں کمی کی توقع کر رہے ہیں۔ ہمارا بنیادی معاملہ یہ ہے کہ ہم CY24 کی دوسری سہ ماہی میں پہلی شرح میں کمی کی توقع کر رہے ہیں کیونکہ مارچ کے مہینے میں CPI کی رپورٹ کے مطابق حقیقی سود کی شرحیں شبت ہو گئی ہیں۔ ہو گئی ہورے کے مہینے میں CPI کی رپورٹ کے مطابق حقیقی سود کی شرحیں شبت ہو گئی ہیں۔

ہم توقع کرتے ہیں کہ نئی حکومت آئی ایم ایف کے ساتھ ایک طویل المدتی انتظامات پربات چیت کرنے میں کامیاب ہو جائے گی جس سے روپے کو مزید استحکام ملے گا اور یورو بانڈ مارکیٹ کھلے گی اور دیگر کثیر جہتی ایجنسیوں جیسے ورلڈ بینک، اے ڈی بی، آئی ایس ڈی بی وغیر ہ سے فنڈنگ حاصل ہوگی۔

23 اگست سے پیداوار کے منحنی خطوط میں تبدیلی پہلے ہی تیز ہو چکی ہے۔ چھوٹے سرے پر پیداوار کاوکر 6M،3M اور 12 M T-Bills کے ساتھ کافی حد تک چپٹا ہو گیا ہے، جو پالیسی ریٹ سے تقریباً 6ps 10 کا منفی کھیلاؤر کھتا ہے۔ پیداوار کے طویل اختیام پر، yrs2.5 اور yrs5 کی پلائن حد تک چپٹا ہو گیا ہے، جو پالیسی ریٹ سے کھیلاؤ تقریباً 6ps 475 اور 6ps 650 ہے۔

آ گے بڑھتے ہوئے، ہم اپنے منی مار کیٹ پورٹ فولیوز کی چکتی پیداوار کو نقصان پہنچائے بغیران کی مدت میں اضافہ کرنے کاارادہ رکھتے ہیں۔لہذا، ہم اپنی پوزیشنوں کو فلوٹر زسے فکسڈریٹ بی آئی بی اور طویل دورانیے کے ٹی بلز میں تبدیل کریں گے۔

مزید، ہم بینکوں کے ساتھ ڈیپازٹ سودوں کے ساتھ گفت و شنید کر رہے ہیں تا کہ منافع کی شرحT-Bill کی پیداوار سے بہتر ہو تا کہ ہم کیبیٹل گین بک کرنے کے لیے پیداوار کے حجووٹے سرے پر تجارت کر سکیں اور بینکوں میں فنڈز واپس لے جاسکیں تا کہ چل رہی پیداوار کو بہتر بنایاجا سکے۔

ہم اپنے نقطہ نظر میں مختاط رہیں گے اور اس وقت تک مار کیٹ سے متاثر نہیں ہوں گے جب تک کہ مزید واضح نہ ہو، خاص طور پر سیاسی اور اقتصادی محاذ پر جس کے بعد ہم طویل مدتی آلات میں پوزیشن حاصل کریں گے۔

اسٹیٹ بینک آف پاکستان نے اس مدت کے دوران پالیسی ریٹ کو 22 فیصد پر بر قرار رکھا۔ تاہم، اس نے اطلاع دی ہے کہ آنے والے مہینوں میں افراط زر میں کمی واقع ہو گی جس کی وجہ اعلی بنیاد اثر اور ست ماہانہ مہنگائی ہے۔ آگے بڑھتے ہوئے، اسٹیٹ بینک آئندہ پالیسی میں شرح سود میں میں افراط زر میں کمی کار جحان دیکھا گیا ہے۔ مزید بر آس، 22 مارچ 2024 کی کمی کر سکتا ہے کیونکہ حقیقی شرح سود مثبت ہو گئی ہے اور افراط زر میں کمی کار جحان دیکھا گیا ہے۔ مزید بر آس، 22 مارچ 2024 تک اسٹیٹ بینک کے ذخائر 8.0 بلین امریکی ڈالر تھے۔

ا قضادی کار کردگی کا جائزه

یا کستان کی معیشت نے مالی سال 2024 کے پہلے نو مہینوں کے دوران کافی واقعاتی دور سے گزر ناشر وع کیا۔ اس عرصے کویا کستان نے IMF کے ساتھ 3 بلین امریکی ڈالر کا SBA کامیابی سے حاصل کرنے، عام انتخابات کے بخوبی انجام دہی، اور وفاقی اور صوبائی سطحوں پرنئ حکومتوں کی تشکیل سے نمایاں کیا تھا۔ محمد اور نگزیب کی بطور وزیر خزانہ تقر ری نے معیشت میں یائی جانے والی غیر یقینی صور تحال کا بھی حل نکالا ہے۔ اس عرصے کے دوران آئی ایم ایف، نئے قرضوں اور چین، سعودی عرب اور متحدہ عرب امارات سے آنے والے رقوم کی آمد سے زر مبادلہ کے ذخائر میں اضافہ ہواہے جو کہ اب22مارچ2024 تک 8.0 بلین امریکی ڈالر کے قریب ہے۔ انٹربینک مارکیٹ میں 307 کی کم ترین سطح ریکارڈ کرنے کے بعد یا کتانی روپے کی قدر میں بھی ڈالر کے مقابلے میں اضافہ ہواہے اور اس مدت کے اختتام پر پاکتانی روپے 277.9 پر ہند ہواہے۔ تاہم،مہنگائیا یک مستقل تشویش رہی، کیونکہ نگراں حکومت نے اس عرصے کے دوران گیس کے نرخوں میں دومریتیہ بڑے پیانے پراضافے کی منظوری دی، جس سے سال بہ سال(YoY) کی بنیاد پر مہنگائی کی شرح میں اضافہ 27.2 فیصد ہو گیا۔ ادائیگی کے توازن کے محاذیر ، ملک نے اپنے کرنٹ اکاؤنٹ خسارے میں تقریباً 74 ہم کی کمی ظاہر کی ہے ، جس نے 8MFY24 کے دوران USD 999mnکا خسارہ پوسٹ کیا ہے جو گزشتہ سال اسی مدت میں USD کے خسارے کے مقابلے میں 3846mn (SPLY) تھا۔ کرنٹ اکاؤنٹ خسارے میں کمی بنیادی طور پر درآ مدات میں کمی اور بر آمدات میں بالتر تیب USD 1.7bn (بشمول سامان اور خدمات) اور USD 1.8bn (بشمول سامان اور خدمات) کی وجہ سے ہوئی۔ تاہم،8MFY24 کے دوران، کار کنوں کی ترسیلات زر میں USD 224mn کی کمی واقع ہوئی، جو تقریباً USD 18.08bn پر ہے۔ حکومت کی طرف سے اٹھائے گئے انتظامی اقدامات کے ساتھ ساتھ سخت مانیٹری اور مالیاتی یالیسی الیی بہتری کا باعث بنی ہے۔ مزید بر آس، اس عرصے کے دوران انٹر بینک مار کیٹ میں روپیہ 307 کی کم ترین سطح پر ریکارڈ کیا گیا، لیکن بعد میں بحال ہوا اور مدت کے اختتام پر PKR277.9 پر بند ہوا۔ مالی لحاظ ہے، FBR اس عرصے کے دوران PKR 6710bn جمع کرنے میں کامیاب رہا۔ آگے بڑھتے ہوئے، مہنگائی میں آسانی کے ساتھ پاکستان کے نئے آئی ایم ایف پر وگر ام میں داخلے کے حوالے سے خبریں معیشت کی سمت کا تعین کرے گی۔

منی مار کیٹ کا جائزہ

9MFY24 میں، پاکستان کا کنزیومر پرائس انڈیکس (CPI)سال بہ سال اوسطاً 27.1% تک پہنچ گیا، جبکہ بچھلے سال کی اسی مدت میں 27.2% اضافہ ہوا۔ مہنگائی میں اہم کر دار اداکرنے والے شعبوں میں خوراک، نقل وحمل اور رہائش شامل ہیں جس کی وجہ گھریلوپٹر ولیم مصنوعات کی قیمتوں میں اضافہ ، بجل کے نرخوں میں اضافہ اور گیس کی قیمتوں میں دومر تبہ بے مثال اضافہ ہے۔
