## ECONOMY AND CAPITAL MARKETS UPDATE

### Economic Review

CPI for the month of Apr'21 clocked in at 11.10%YoY compared to 8.53%YoY in the same period last year (SPLY). On a monthly basis, CPI appeared at 1.03% vs 0.36% in Mar'21. The inflation surged mainly due to seasonality effect, apart from the base effect, emanating from higher food and clothing & footwear prices due to Ramadan and following EID festival, respectively. Resultantly, average inflation has reached to 8.63%YoY during the 10MFY21 and is reckoned to settle at 9.1-9.2%YoY, slightly above the upper limit of the SBP's target range of 7%-9%. On balance of payment (BOP) front, Pakistan posted current account deficit (CAD) of USD 47 million during the Mar'21 compared to USD 31 million deficit in the previous month, leaving total current account position to a surplus of USD 959 million for 9MFY21 against a deficit of ~USD 4.15 billion during the SPLY. Exports during the month represented a tremendous performance since the country exported goods & services worth ~USD 3.18 billion versus ~USD 2.66 billion in the previous month, up ~19%MoM. Cumulatively, exports clocked in at ~USD 23.07 billion for 10MFY21 compared to ~USD 22.63 billion in the SPLY, up 2%YoY. On the other hand, Pakistan imported goods & services worth ~USD 5.85 billion compared to ~5.18 billion in Feb'21, up 13%MoM. It is pertinent to mention that the growth in exports surpassed the increase in imports during the month. Total imports for 10MFY21 have reached at ~USD 43.09 billion compared to ~USD 41.34 billion in the SPLY. Overall trade deficit increased by ~7%YoY during 10MFY21 compared to SPLY. Worker's remittance kept on rising and clocked in at ~USD 2.72 billion compared to ~USD 2.27 billion. In aggregate, remittances for 9MFY21 arrived at ~USD 21.47 billion, up 26%YoY. Finally, the foreign exchange reserves, at SBP, stood at ~USD 16.43 billion, as of April 23rd 2021, providing a total import cover of ~3.43 months. On the fiscal side, FBR managed to collect PKR 384 billion during the month, taking the total collection for 10MFY21 to ~PKR 3.98 trillion, up 13%YoY, while overshooting the target of ~PKR 3.64 trillion for the period by ~PKR 338 billion.

### Money Market Review

During the month, T-bill auctions saw considerable participation in 3M and 6M tenors with cutoff yields declining sharply after MPC decided to keep the policy rate unchanged. 3M cutoff yield decreased from 7.54% to 7.40%, 6M cutoff yield decreased from 7.80% to 7.69% however the ministry scrapped the bidding in 12M tenor. During Mar'21 government ended up borrowing a total of PKR 1,368bn across 3M, 6M tenors. PIB auction held during the month also a significant decline in cutoff yields, especially in the 3Y instrument. 3Y cutoff yield decreased from 9.41% to 9.27%, 5Y cutoff yield decreased from 9.90% to 9.85% whereas the 10Y cutoff yield decreased from 10.29% to 10.25%. The market yields however nosedived post auction as the 3Y PIB traded at 8.60%, almost 67bps below the last cutoff. Similarly the 5Y PIB traded at 9.15%, almost 70bps below the last cutoff. During the month of Apr'21 SBP conducted nine OMO (Injections) and remained a net lender of PKR 1,622.8bn at a weighted average yield of 7.05%.

### Stock Market Review

During the month, the KSE-100 index undertook a decline of 326 points (~0.70%MoM) despite the promising corporate earnings during the result season, and closed at 44,262 points. This took CYTD and FYTD returns to ~-1.16% and ~-28.59%, respectively. Average traded volume decreased by ~33.80%MoM to ~155 million while the value declined by ~18.00%MoM to ~USD 78 million. Range bound performance of the market was due to political noise and increase in the severity of Covid-19 infection ratio and death toll. Foreign investors continued their selling spree by offloading shares worth of ~USD 17 million. On the domestic front, other organizations and individuals bought massively with a net buying of ~USD 20 million and ~USD 7 million, respectively. ## FUND MANAGER'S COMMENTS

ABL Islamic Pension Fund - Debt Sub Fund posted an annualised return of 4.89 % during the month of March '21. Other than 33.72 % in GoP Ijarah Sukuk, portfolio had an exposure of 12.65% in Corporate Sukuks and 44.08 % of the fund's assets were placed as Cash at bank. Going forward, we intend to maintain the current portfolio allocations as we expect price appreciation in both Corporate and GOP Ijarah Sukuks in the near term owing to the lack of shariah complaint instruments in the market.

The Scheme has maintained the provision against Sindh Workers' Welfare Fund's Liability to the tune of Rs. 73,755, had the same not been made, the NAV per unit of the scheme would have been higher by Rs. 0.1738 per unit.

During the month significant allocation was maintained as bank deposits (i.e. 85.21 %) owing to better deposit rates offered by banks while 13.66 % of the portfolio was placed in GoP Ijarah Sukuks.

The Scheme has maintained the provision against Sindh Workers' Welfare Fund's Liability to the tune of Rs. 39,909, had the same not been made, the NAV per unit of the scheme would have been higher by Rs 0.0737 per unit.

ABL Islamic Pension Fund - Equity Sub Fund generated a return of - 4.16 % during the month of March '21. During the month, the KMI-30 index declined by 3,238 points (~4.25%MoM) in Mar'21, and closed at 73,076 points. This took the CYTD and FYTD returns to ~-2.63% and ~-32.81%, respectively.
